The breakfast

Departure of guests

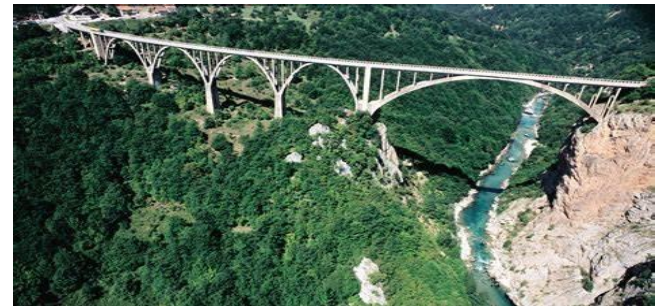

Accommodation at Hotel Bjanka in Kolašin

Durmitor is a mountain and a national park in Montenegro. The highest peak is Bobotov kuk, 2,523 m high. The beauty of Durmitor is given special charm by 18 glacial lakes, called mountain eyes, at heights above 1500 m. The largest and most attractive is **Black Lake**. Vast forest areas contribute to the magnificence of the landscape. Durmitor National Park is part of the World Cultural and Natural Heritage.

Tara, an impressive river, has one of the most beautiful canyons in the world, up to 1,300 m deep, which makes it the deepest canyon in Europe and the second in the world, after the Grand Canyon of the Colorado River in the USA. The **Great Bridge on Tara**, one of the 20 most beautiful in the world as chosen by the "Bright side" portal, and the British "Times" ranked it among the 10 attractions that should be visited. Tara and its canyon valley have been included in the world ecological biosphere reserves by the UNESCO program.

Biogradska gora, one of the last three rainforests in Europe, is a specially protected place in Montenegro. This untouched corner of the beauty and splendor of nature, in its ancient forests, also hides a real gem - **Lake Biograd**, which is located in the central part of the Biogradska Gora National Park. Mount **Bjelasica** is one of the most beautiful mountains in Montenegro, where the largest Montenegrin ski center is located. The highest peak of Bjelasica is Crna Glava, 2,139 meters high.
